

SAURABH VISHWAKARMA

Full Stack Developer (MERN)

Lucknow, Uttar Pradesh, India | +91 9026755863 | saurabhvk24@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer (MERN) graduating in 2026 with a B.Tech in Computer Science and a strong record of independently building and shipping production-style applications. Delivered 4+ full-stack projects totaling 40+ REST API endpoints and real-time messaging systems using Node.js, Express.js, MongoDB, and Socket.io. Solid foundation in Data Structures & Algorithms, Object-Oriented Programming, and backend system design, with additional certification in AI Agents, Data Science, and Azure AI Foundry.

CORE SKILLS

Languages: C, Java, Python, JavaScript, TypeScript, SQL

Frontend: HTML5, CSS3, React.js, Next.js

Backend: Node.js, Express.js, REST APIs, Socket.io, MongoDB

Core CS: Data Structures & Algorithms, OOP, MVC Architecture, System Design Basics

Tools & Platforms: Git, GitHub, Postman, JWT Auth, Azure AI Foundry

EDUCATION

Babu Banarasi Das Northern India Institute of Technology, Lucknow

2022 – 2026

B.Tech, Computer Science — CGPA 8.69 / 10

Higher Secondary (Class XII), UP Board, Lucknow

2022

High School (Class X), CBSE Board, Lucknow

2020

PROJECTS

REST API E-Commerce Backend — Node.js, Express.js, MongoDB

- Engineered a scalable RESTful API backend following MVC architecture, delivering 20+ CRUD endpoints across products, orders, and users with JWT authentication, refresh-token rotation, and role-based access control (RBAC) securing 100% of protected routes.
- Built production-grade reliability with MongoDB transactions for atomic operations, chainable query filtering (ApiFeatures), Helmet and rate-limiting for security, and Winston for structured logging.
- Ensured code quality through Jest/Supertest test coverage and documented all endpoints via a complete Postman collection.

Real-Time Chat Platform — Chatify — Node.js, Express.js, MongoDB, Socket.io, WebRTC

- Architected a full-stack real-time chat platform with JWT authentication, bcrypt-hashed passwords, and OTP-based email verification via Nodemailer, securing all sensitive routes through middleware.
- Implemented peer-to-peer voice/video calling using WebRTC with Socket.io signaling, alongside real-time friend-request notifications and live online/offline presence tracking.
- Built private 1-to-1 messaging scoped to individual friend pairs via dynamic Socket.io room allocation, with persisted chat history and a Three.js-powered animated UI.

24Zen — Independent Product (Founder) — React.js, Three.js, Node.js

- Designed and independently built the concept, brand identity, and a Three.js-powered landing experience for a proposed 24x7 service platform spanning 6 verticals (groceries, healthcare, skilled workers, food delivery, transport, digital utilities).
- Created a 12-slide investor pitch deck and complete branding asset set for early-stage investor outreach.

Full Stack Web Application — Node.js, Express.js, JavaScript

- Developed an end-to-end web application integrating a Node.js backend with a dynamic JavaScript frontend for form-based data collection, built on 10+ RESTful API endpoints.

Reusable Frontend UI Component Library — HTML5, CSS3

- Designed a library of 10+ reusable UI components using CSS Flexbox and Grid, enabling cross-browser responsiveness.

CERTIFICATIONS & TRAINING

- Kali Linux — Cybersecurity Fundamentals Certification — *Simplilearn SkillUp*, 2026
- Soft Skills Program — *Learnovate Enterprises / BBD Group*, 2026
- Claude AI & AI Agents Course — *Anthropic*, 2026
- AI Agents: Beginner to Pro, Azure AI Foundry — *Udemy*, 2026
- Web Technology Workshop — *Softpro India*, 2023
- Data Science, AI & DSA Training (90 Hrs) — *Ducat / ShapeMySkills*, 2025
